

NU-TECH

FIRE + SAFETY

NEW!

Fire Extinguisher Training Program

Train your employees with our new BULLEX I.T.S. Live Fire Training program.

The BULLEX Intelligent Training System (I.T.S.) is a safer, cleaner and cost-effective training program that does not compromise the realistic effort and techniques to properly extinguish a fire!

Our Mobile I.T.S. allows Nu-Tech to offer on-site training **at your workplace**. Using only water, compressed air and propane, the I.T.S. is environmentally friendly with no clean-up.

Up to 10 people — \$400^{+GST}

11–15 people — \$450^{+GST}

16–20 people — \$500^{+GST}

Larger groups, please contact for pricing. Training certificates are available for an additional cost.

Jim Harker

Fire & Life Safety Educator

Jim is available, by appointment, to instruct your staff on the proper:

- > use, care and inspection of portable fire extinguishers
- > how to identify and react to different types of fires
- > when to evacuate a building
- > how and when to fight a fire
- > how to do a fire safety inspection of your building
- > how to keep a fire safety log book

For more information or to book an extinguisher demo call
